A professional DJ since 1980, and the owner of Choice Entertainment, Bill has built a solid reputation as one of the area's best, and most in demand DJs. With over 600 wedding receptions to his credit, Bill is a very experienced, articulate MC, well known for his ability to play a mix of music that gives everyone a chance to get on the dance floor.

"I realized a long time ago that it is a huge responsibility to perform for wedding receptions. The success of the entire event depends on the entertainment being appropriate. My job is to understand my client's vision for their reception, advise them on innovative ways to realize that dream and make it all look easy on wedding day."
